- Convergence
- International opportunities

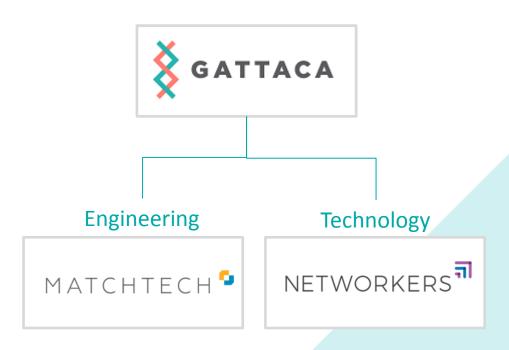

An overview of our business and growth drivers

Brian Wilkinson

Gattaca Strategic Positioning

Largest specialist international pure play Engineering & Technology recruiter:

Overview of Gattaca

14 office 11 countries

~ 800 employees

Trusted by 2,500 employers

9,000 contractors 4,000 permanent placements

Candidates placed in over 100 countries

In excess of 1 million candidates on our database

*No1 UK Engineering *Top 5 UK Technology

Revenue of £614m

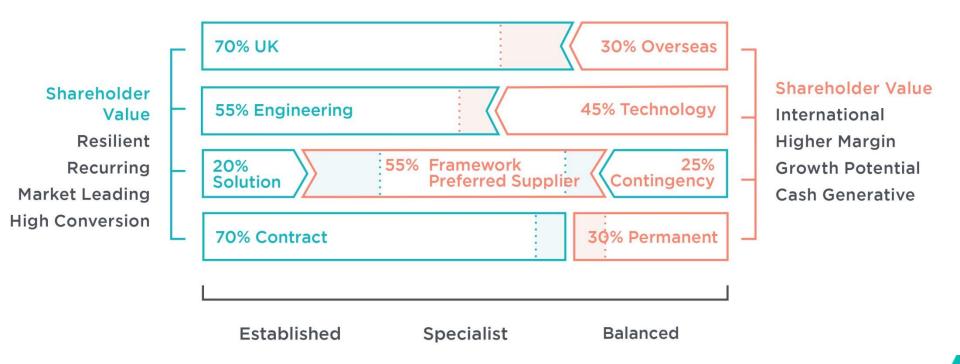

AIM listed

Our Business Model

Core Business Update

Keith Lewis

26th September 2016

Engineering

MATCHTECH

Engineering 8 markets

Engineering Growth Drivers

Aerospace

- Focus on increasing manufacturing production rates
- No major new aircraft models in the pipeline
- Aftermarket retrofit & interior suppliers struggling with demand, work flowing down to SME's

Automotive

- ▶ Investment in UK manufacturing continues
- Need to design new technologies; hybrid and alternative fuel transmissions
- ▶ Signs automotive companies looking to re-shore operations to the UK

Maritime

- UK defence sector
- ▶ Canadian NSS \$33 billion 30 years naval ship building programme
- > Australian Defence Programmes

Engineering Growth Drivers

Energy

- Northern Europe 9 offshore wind farms scheduled for construction in 2016
- Extensive upgrades to European electrical grid infrastructure
- ▶ UK nuclear new build long term
- ▶ Oil & gas weak

General Engineering

- No obvious slowdown in Manufacturing levels
- ▶ Move towards automated processes
- ▶ Consumer Electronics market buoyant
- Niche Science & Medical candidates remain in high demand

Professional

- ▶ Increased demand from Engineering clients for Sales & Procurement staff
- Desire for candidates with international experience
- Procurement supply chain management shift from operational to strategic
- ▶ Investment in Apprenticeships

Engineering Growth Drivers

Infrastructure

- ▶ Rail project delivery: HS2; Crossrail (phase 2); Wessex to Waterloo line improvements
- ▶ Buildings: structure/services
- ▶ Water design: project delivery; Thames Tideway

Engineering Technology

- ▶ The "Internet of Things"
- Connected car
- ▶ Industry 4.0 "Smart factories"
- Rail automation & communication
- ▶ Enhanced Air Traffic Control
- UK centre of excellence connected/autonomous vehicles

Technology

Technology 6 markets

Technology Growth Drivers

Development

- Organizations rely heavily on the web as a channel for connecting with customers, clients, partners and employee
- ➤ The demand for applications to be on a mobile platform is increasing

Cloud

- ▶ Prediction that more than half of enterprise IT infrastructure and software investments will be cloud-based by 2018

Cyber security

- Constantly evolving threats and new technologies being adopted
- Security becoming business critical and one of the most important IT topics

IT Leadership

- ➤ The pace of technology change is accelerating
- Business change/ transformation skills required for successful implementation of new technologies.

ERP

- > SAP project based upgrade market
- ▶ Oracle EBS introduction and implementation of Fusion product.

Communications

- South East Asia laying the ground work for rolling out 4G
- □ US fixed line cabling higher quality, faster streaming & quicker connections between locations
- 5G development on the horizon properly connected smart cities; driverless cars; "internet of things"

Client Solutions

Matt Wragg

What are the solutions?

Contractor Workforce Solutions (CWS)

- Management Service
 Programmes
- Master & Neutral Vendor models
- Total flexible workforce insight

Permanent Recruitment Solutions (RPO)

- Full or partial recruitment process outsourcing (RPO)
- Attraction and retention strategy

Total Workforce Solutions (TWS)

- Full outsource of contingent and permanent recruitment
- Looking at all aspects of the resource strategy and deployment

Why do clients buy solutions?

Functional gains

- > Data Insight
- Workforce planning
- Process improvement
- Sourcing Innovation
- > HR programmes

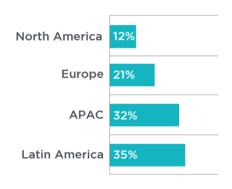

Tactical gains

- > Cost
- Accountability
- Compliance
- Reduce in-house head count
- Continuous improvement

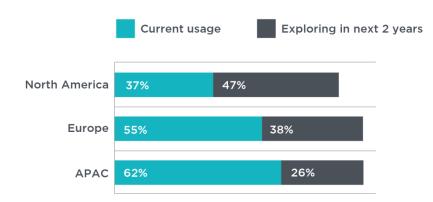

Market Trends

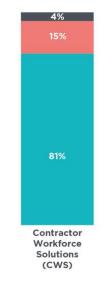

MSP projected growth 2014-2019 CAGR

Global management of contract workers

SIA analysis which programmes will be used more / less over the next 5 years

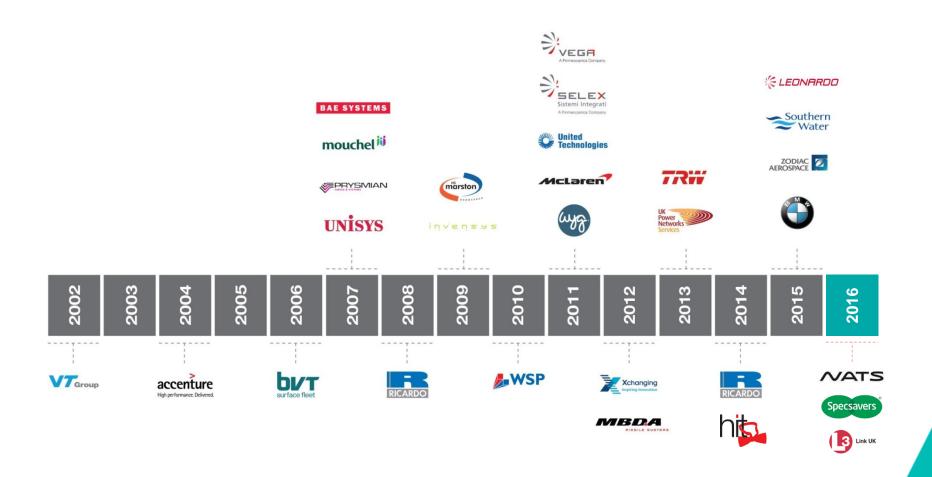

Our Positioning

- Delivering solutions since 2001
- Niche technology or engineering skills
- Gattaca our 'go to market' brand
- Move up the value chain
- Proven delivery
- Enviable position

Convergence

Tim Carling

Convergence

- The ever decreasing gap between traditional engineering & IT skills
- Connectivity driving convergence the digital nerve system
- Where is this happening??

Connected Cars

Industrial IoT

Smart Cities

Growth Drivers

- Global demand for connectivity
- Embedded to application software
- Cross-industry "skill shifts"
- Client market re-positioning

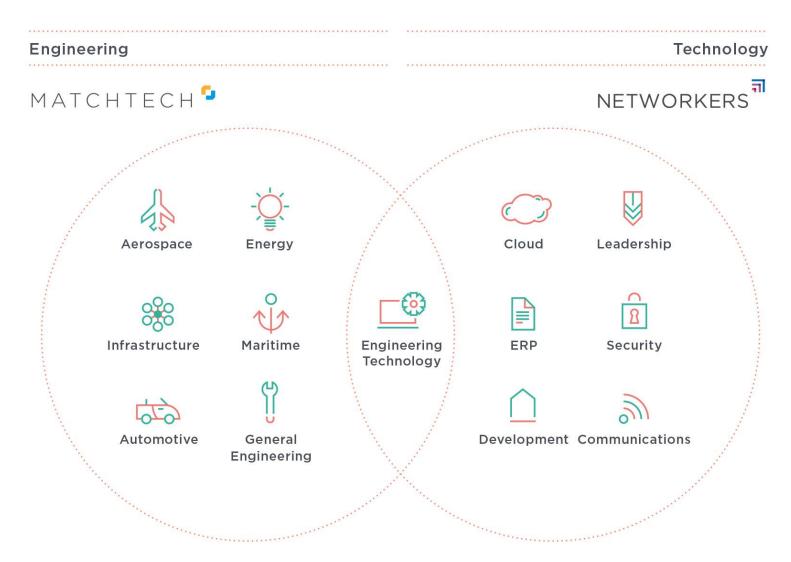

"The Thames framework is a game changer and will bring increased IT skill demands for our industrial automation service business – Matchtech look ahead of the curve with a candidate network that can supply these skills from an engineering angle"

Dave Pickles MD of Bilfinger Industrial Automation Systems

International Growth

Brian Wilkinson

International growing rapidly

US - \$120bn Market

US Growth Drivers

- **Opportunity** Engineering market covered by 10 generalist firms compete on low margins for high volume Structural Managed Services Providers (MSP) on a tiered supplier approach drives margins down even further Highly specialized providers lack ability to scale Engineering and Technology markets have high demand to keep up with technological disruption Telecoms Industry stable, awaiting 5G Sectoral Strong demand for highly skilled IT candidates e.g. ERP, Development and Cloud capabilities
- > Infrastructure investment at all time high

US Positioning

- Aim to top 10 technical specialist in the US
- Gattaca provides specialist services, through dual brands
 - » with the ability to scale
 - » entrance through Engineering, IT or Telco
 - » well positioned through historical relationships e.g. Infrastructure, Automotive
- Capture market share by carving out specialist, high value scope
 - » from the MSP or
 - » within the MSP as a specialist provider
- Target the MSP or programme services business
 - » By building relationships that give us competitive advantage over time

US Infrastructure

HTP – one of many opportunities

53,000 bridges

19% 'structurally deficient' or 'functionally obsolete'

American Society of Civil Engineering

Texas has largest highway network in USA

Growing population, deteriorating infrastructure

Annual truck freight tonnage expected to double by 2040

"38% of major roads in 'poor or fair' condition"

American Society of Civil Engineering

Texas State Highway Fund \$21bn 2016/17

US Growth plan

- Diversification from telco into automotive and infrastructure
- > 5 specialist consultants from the UK
 - » Internal recruitment and training in place
 - » Plan to grow NFI by 35% 2017
- ➤ To build a highly successful, sustainable driver of profitable growth for the Group
